BOARD OF TRUSTEES POLICIES**

**BP 2520 Academic Senate**

**Issued: May 19, 2015**

Reference:

Education Code Section 70902(b)(7);  
Title 5, Sections 53200 et seq  
Accreditation Standard IV.A  
Board Policy 2510 Participation in Local Decision Making

The Academic Senate is organized under the provisions of the California Code of Regulations, Title 5, shall represent the faculty and make recommendations to the administration and to the Board with respect to academic and professional matters, so long as the exercise of such functions does not conflict with the lawful collective bargaining agreement.

The Board or its designee will consult collegially with the Academic Senate when adopting policies and procedures. The Board will rely primarily on faculty expertise on academic and professional matters as defined by Sub-Chapter 2, Section 53200, et seq., California Administrative Code, Title 5, and as listed below:

1. Curriculum, including establishing prerequisites and placing courses within disciplines;
2. Degree and certificate requirements;
3. Grading policies;
4. Educational program development;
5. Standards and policies regarding student preparation and success;
6. District and College governance structures as related to faculty roles;
7. Faculty roles and involvement in accreditation process, including self-study and annual reports;
8. Policies for faculty professional development activities;
9. Processes for program review;
10. Processes for institutional planning and budget development, and
11. Other academic and professional matters as mutually agreed upon between the Board of Trustees and the Academic Senate.

The Academic Senates' organization, membership functions, and committee structure shall be developed by the Academic Senate.

**COMPTON COLLEGE ACADEMIC SENATE MEETING DATES AND LOCATIONS** (1<sup>st</sup> & 3<sup>rd</sup> Thursday)

<u>FALL 2019</u>	<u>LOCATION</u>	<u>SPRING 2020</u>	<u>LOCATION</u>

Carlos Maruri (19-21)

### **At-Large (2)**

Jerome Evans (19-21)  
Amber Gillis (19-21)

### **Adjunct Representatives (2)**

Mahbub Khan (19-21), Adjunct Representative  
Vacant (19-21)

## Academic Senate Minutes

**Facilitator:** Amber Gillis, President

**Recorder:** Nikki Williams, Secretary

**Date:** September 5, 2019

**Time:** 12:30-2:00 p.m.

**Location:** Boardroom

**Vision:**

Compton College will be the leading institution of student learning and success in higher education.

**Mission Statement:**

Compton College is a welcoming and inclusive community where diverse students are supported to pursue and attain student success. Compton College provides solutions to challenges, utilizes the latest techniques for preparing the workforce and provides clear pathways for completion of programs of study, transition to a university, and securing living-wage employment.

**Senators Present:**

<input type="checkbox"/> Atkinson- Alston, Stephanie	<input type="checkbox"/> Maruri, Carlos	<input type="checkbox"/> Sidhu, Rajinder
<input type="checkbox"/> Estrada, Harvey	<input checked="" type="checkbox"/> Mills, Jesse	<input checked="" type="checkbox"/> Thomas, Shirley
<input type="checkbox"/> Evans, Jerome	<input type="checkbox"/> Moldoveanu, Minodora	<input type="checkbox"/> Valdry, Andree
<input checked="" type="checkbox"/> Ekimyan, Roza	<input type="checkbox"/> Pham, Hoa	<input type="checkbox"/> Villalobos, Jose
<input type="checkbox"/> Gillis, Amber	<input checked="" type="checkbox"/> Richardson, Pamela	<input type="checkbox"/> Williams, Nikki
<input checked="" type="checkbox"/> Khan, Mahbub	<input type="checkbox"/> Roemun, Malinni	<input checked="" type="checkbox"/> Alaimalo, Anthony
<input checked="" type="checkbox"/> Kooiman, Brent	<input type="checkbox"/> Schumacher, Holly	
	<input type="checkbox"/> Schwitkis, Kent	

**AGENDA:**

**1) Call to Order**

12:45pm Amber Gillis

**2) Approval of Agenda**

Amend agenda to include Anthony Alaimalo's name as a senator and the At-Large Position is held by Amber Gillis not Valerie Woodward- Evans/Roemun

**3) Review and Approval of Minutes from May 30, 2019 Meeting**

Amend the minutes to correct the spelling of M. Roemun's name- Schwitkis/Roemun

**4) Reports**

a) President's Report- Amber Gillis

Consultative Council- We discussed what happened at Flex Day. The overall reception was that it was well received. E. Martinez reported that there were a great number of faculty that attended the Student Grievances breakout session. This shows that there are many faculty that still have questions about this process. There are many faculty that have concerns about student's mental health. We are booked solid for all of the mental health slots that we have. There is a listing of the Friday flex days that we sent out to all the faculty. Please take a look at that.

b) Vice President's Report- Jesse Mills

No report

c) Faculty Board Representative Report- Jerome Evans

The ASB Committee will begin meeting for Latino Heritage Month. I will be coming around asking for donations and I appreciate your past support and hope you will continue to support us.

d) Academic Affairs Report

No report

e) Accreditation Report- Amber Gillis

We are beginning our Mid-term year so this means that we are beginning to write our Mid-term report. We will begin meeting regularly if you are one of the standards please look for emails that will be coming out soon. If anyone would like to join an accreditation team, please let me know.

f) Curriculum Report

No report

g) Distance Education Report- Jasmine Phillips

No report

h) Faculty Development Report

No report

**5) Actionable and Discussion Items**

a. First Read – Needs Assessment Document: Lauren Sosenko, Manager of Institutional Research

Motion to open the item for discussion- Moldoveanu/Schwitkis. A. Gillis- Please take this back to your constituent groups and get feedback. It is a lengthy survey. Discussion followed. Please send your feedback directly to L. Sosenko. K. Schwitkis- What is the timeline for this? A. Gillis- Whatever we need. If we need to take it to a 3<sup>rd</sup> read then that is ok. Motion to close discussion on the Needs Assessment Document first read- Valdry/Moldoveanu.

b. Spring 2019 Academic Senate President-Elect Election

Motion to open the item for discussion- Schwitkis/Pham. A. Gillis- In looking at the 2011 Constitution it states that the officers need to be part of the tenured faculty. Minodora Moldoveanu is in year 4 and is not tenured faculty. We have a small wrinkle in this. We can make a motion to suspend that language of the constitution but it must be taken to the faculty body and be ratified by 2/3 of the vote. Discussion followed. H. Pham- We had a first election and everyone said that we violated the constitution, so we held another election. In all fairness, because we have violations with the most recent election, we should hold another election. A. Gillis- I will tell you in that having conversations with John Sankas he suggested that we inform the faculty and host an open forum. This would be a way as a senate body for us to sit and answer questions from the faculty body directly. We need to be able to allow for public comment and discussion. We need to be public and transparent about what happened. K. Schwitkis- My feeling was that we keep things the way they are and re-write the constitution then have an election. Discussion followed. Motion to close the discussion on Spring 2019 Academic Senate President-Elect Election- Schumacher/Thomas. Ayes have it and the motion carries and discussion is closed. Motion to suspend the portion of the constitution that requires officers to have tenure- Schumacher/Villalobos. No- S. Thomas and M. Roeun, Abstentions- K. Schwitkis and H. Pham- Ayes have it and the motion carries. Motion that Minodora Moldoveanu keeps her position as president-elect based on the recent elections we held in Senate- Schumacher/Villalobos. Abstentions- S. Thomas and M. Roeun- Ayes have it and the motion carries.

c. 2019-2020 Academic Senate Goals

Motion to open the item for discussion- Schwitkis/Villalobos. A. Gillis- I want to open this up to any senators that were not at the retreat. Is there any discussion. H. Pham- I have heard a lot from faculty and students about Banner and I am wondering if we should include this in the goals. Is this something that we can help with? Discussion followed. A. Gillis- We can draft a resolution as a Senate to make a recommendation to the District. Motion to close discussion on the Academic Senate Goals first read- Villalobos/Evans. A. Gillis- Take this back to your constituent groups and send changes directly to me.

d. Minimum Qualifications – Campus-wide by discipline

Motion to open the item for discussion- Minodora/Evans. This is a campus wide task and this will be spearheaded by us. This is part of what we need to do as senators. This should come directly from faculty and it is something that we need to work on soon. Discussion followed. Motion to close discussion on Minimum Qualifications- Evans/Villalobos.

**6) Informational Items**

a. 2019-2020 Academic Senate Meeting Dates

A. Gillis- The dates can be found in your senate packet.

b. 2019-2020 Academic Senate Agenda Request Calendar

A. Gillis- At a later date we will discuss informational vs. actionable items.

c. Help Wanted: Academic Senate Mace, Committee Memberships for Academic Senate Subcommittees: OER, Educational Policies Committee, Academic Senate Constitution Workgroup

A. Gillis- There are sign-up sheets on the back table for anyone that is interested in joining one of the groups.

d. Upcoming Events: 3<sup>rd</sup> Annual Tenure Reception, ASCCC Fall Plenary

Tenure Reception is on Wednesday, September 25, 2019 from 6-8pm in the Student Lounge.

ASCCC Fall Plenary is November 7-9 in Newport Beach.

**7) Announcements**

**8) Future Agenda Items**

a. Committees and Faculty Participation

b. Board Policies and Administrative Regulations – Fall 2019 Review Schedule

c. Curriculum Committee Chair Appointment, 2020-2023 Election, and Curriculum Handbook Revisions

**9) Adjournment- 2:05pm Amber Gillis**

**Next Scheduled Meeting: September 19, 2019 at 12:30pm**

**Boardroom**

## Professional Development Needs Assessment for Compton College

July 2019

This Professional Development Needs Assessment survey for Compton College is designed to understand how faculty and staff view their needs to improve their performance and job fulfillment. The Assessment findings will be presented to relevant committees (e.g., Professional Development Institutional Standing Committee, Academic Senate Committee on Professional Development) and then to Consultative Council (the group that represents all constituency groups on campus). Finally, the findings from this Assessment will be provided to the new Director of Professional Development to inform professional development offerings in 2019-20 and beyond.

Your answers to this 20-30 minute survey are anonymous and will be used to ensure the college provides you the opportunity to continuously improve for student success.

	Question:	Answer choices:	Respondents:
1	Please choose your employee group:	Full-time faculty Adjunct faculty Classified staff Manager	All
2	What is your gender?	Female Male	All

DRAFT

## Compton College Academic Senate Goals 2019-2020

The senators of Compton College Academic Senate have designated the following nine goals as specific areas of concentration for the 2018-2019 academic year:

1. Establish a diverse representation on all campus committees.
2. ~~Support the implementation of AB705: Seymour Campbell Student Success Act of 2012 for math and English.(Complete)~~
3. ~~Support the implementation of Guided Pathways and Meta-Majors for Compton College students.(Complete)~~
4. Establish an orientation for Academic Senate senators.
5. Increase communication between Senators and their constituents through increased email contact and regular reporting out during Division meetings.
6. Increase faculty attendance and involvement at Academic Senate meetings.
7. Assist in the growth of faculty professional development activities on campus.
8. Support and assist in the structure and implementation of *AB288: Public schools: College and Career Access Pathways* Partnership Agreements with local high schools.
9. Support Strong Workforce efforts on campus.
10. Increase transparency and communication between faculty and administration.

Adopted November 1, 2018

Updated September 13, 2019

**Table of Contents: [to be constructed upon completion of final Word doc draft to ensure correct pagination]**

**CHAPTER 1: Plan Background, Overview, and Purpose**

In 2017 Compton College developed a Technology Master Plan for the expansion and support of future technologies to fulfill the College’s mission as it prepared for its transition to an independent community college district. To that end, the *2017 Technology Master Plan* identified technology guidelines through 2022 and established “a set of visions and recommendations that determine technological improvements for the educational experience for all students at the College.” A number of the *2017 Technology Master Plan* objectives were completed or initiated by 2019.

Subsequently, in the spring of 2019 the College updated its comprehensive master plan, *Compton College 2024*, establishing a student-centered focus to all College planning via the Tartar Completion by Design framework and Guided Pathway Divisions, which called for a revised technology plan. Thus, this *Compton College 2024 Technology Plan* will assess the outcomes of the *2017 Technology Master Plan*, evaluate current and anticipated conditions, identify the technology implications of the *Compton College 2024* plan, and ascertain the resources needed to support Tartar Completion by Design and Guided Pathway Divisions through 2024.

## **CHAPTER 2: College Mission and Vision, and Implications for Compton College 2024 Technology Plan**

The Compton College mission statement, which serves as the cornerstone of all planning by representing the College’s most fundamental purposes, is as follows:

*Compton College is a welcoming and inclusive environment where diverse students are supported to pursue and attain student success. Compton College provides solutions to challenges, utilizes the latest techniques for preparing the workforce and provides clear pathways for completion of programs of study, transition to a university, and securing living-wage employment.*

The vision statement, which articulates what the College wants to achieve through its mission, states: *Compton College will be the leading institution of student learning and success in higher education.*

Compton College’s values, which articulate the College’s operating philosophies and reflect its organizational ethos and most deeply-held beliefs, are grounded on the following principles:

- *Student -centered focus in providing students the opportunities for success.*
- *Excellence as a premier learning institution recognized for outstanding educational programs, services, and facilities.*
- *Supportive and nurturing guidance in a professional and caring environment.*
- *Dedication in our commitment to our diverse community through partnerships with local schools, universities, and businesses.*
- *Innovation in adapting new ideas, methods, and techniques to further student learning and achievement.*
- *Fiscal integrity in the transparent and efficient use of financial resources to support student success.*

Compton College’s mission, vision, and values carry important implications for the *Compton College 2024 Technology Plan*. Specifically, ensuring the success of all students by fostering a welcoming, inclusive, innovative, and student-centered approach to all institutional functions requires the strategic deployment of technology resources. Thus, the analysis of current and future technology needs, as well as the establishment of the goals and objectives in the *Compton College 2024 Technology Plan*, will allow the College to operationalize its strategic initiatives and implement Tartar Completion by Design and Guided Pathway Divisions.

**CHAPTER 3: Compton College 2024 Strategic Initiatives, Tartar Completion by Design, Guided Pathway Divisions, and Implications for the Compton College 2024 Technology Plan**

**Section 1— Compton College 2024 Strategic Initiatives**

As noted in the *Compton College 2024* plan, the College’s five over-arching strategic initiatives, which align to the California Community Colleges Chancellor’s Office Vision for Success goals, serve as the blueprint for all College planning. These strategies also guide the College’s implementation of Tartar Completion by Design to focus on the student experience and organize strategies and measurable outcomes around students’ connection, entry, progress, completion, and transition to employment or transfer to a four-year institution. Therefore, considering the central role of technology in the implementation of this framework, an evaluation of the implications of these initiatives for technology planning is essential to understanding current conditions as well as to the framing of the goals and objectives established in the *Compton College 2024 Technology Plan*. Accordingly, Table 1 correlates the *Compton College 2024* strategic initiatives’ objectives and key actions with significant implications for technology planning, as well as for other related collegewide planning.

**Table 1: Strategic Initiatives, Key Actions, and Implications for Technology Planning**

STRATEGIC INITIATIVES	OBJECTIVES	KEY ACTION STEP(S)	IMPLICATIONS FOR TECHNOLOGY PLAN
<b>1: Improve enrollment, retention, and completion rates for our students.</b>	Obj. 1: Tailor degree and certificate programs to meet the needs of our students.	Refine existing Program Mapper guides for students.  Provide orientation and customer service training for all campus personnel.	Faculty experts must vet and approve Program Mapper guides.  Orientations and customer service trainings must be made available in-person and online; customer service programs and ongoing technology support require investments in ITS personnel and infrastructure.
	Obj. 2: Educate students about pathways to graduation.	Provide professional development in student education planning for faculty, staff and administrators, and increase involvement and engagement in the planning process.	Requires an annual professional development plan, which includes technological trainings related to student education planning software (e.g., degree audit, career pathways web applications).
	Obj. 3: Enhance student preparation for academic success and completion.	Research current student needs and programs.	Given the notable percentage of households in service area cities without current access to computers or broadband, the College may assess students’ technological needs and develop a plan to address those needs to support equity among students.

<b>2: Support the success of all students to meet their education and career goals.</b>	Obj. 3: Enhance student preparation for academic success and completion.	Offer more courses that are in demand.  Improve and expand the most successful programs with highest enrollment to meet supply and demand.	Will require increasing online offerings for high demand courses and plans to ensure that students have access to the computer technology needed to enroll and succeed in these courses.
<b>3: Support student success through the use of technology.</b>	Obj. 1: Implement an Early Alert program to identify and notify students of support services and programs in a timely manner.	Acquire Early Alert system, implement, and provide training.	The College has initiated implementation of the Ellucian CRM (Constituent Relationship Management) Advise ERP (Enterprise Resource Planning) Module, but will need to continue CRM Advise training to support the full operation of this module by Spring 2020.
	Obj. 2: Provide robust distance education course and service offerings.	Improve technical support for faculty and staff.	Requires filling of critical position vacancies [e.g., Helpdesk Technicians for onsite support for staff and faculty computer and other technologies (e.g., A/V, printers), Business Application Support Analyst for onboarding new employees, conducting end-user training, and acting as a liaison between the technical and non-technical users].
	Obj. 3: Enhance technology for teaching and learning through professional development.	Upgrade/recycle computer and other technology equipment on a scheduled basis.	Smart classroom technology will have to be incorporated into future classrooms or presentation spaces, and provide regular upgrades to keep current with changing technologies – all of which requires planning for additional hardware, software, training, and the staffing needed for implementation.
		Upgrade classrooms to smart classrooms.	
		Improve the reliability of Wi-Fi access across the campus.	Requires planning for additional human resources (e.g., Network Support Specialist to maintain updates, monitor device status, network traffic performance, document all network changes, and perform configuration backup.)

Note: Compton College 2024 Strategic Initiatives and objectives that do not have technology implications are not highlighted in this table. Please see the Compton College 2024 plan for the comprehensive list of Strategic Initiatives.

**Section 2 —Tartar Completion by Design, Guided Pathway Divisions, and Technology Plan Implications**

Tartar Completion by Design focuses and organizes the College on the student experience from the moment they learn about Compton College to when they complete their goal(s) at the College and

beyond (i.e., connection, entry, progress, completion, and transition). Therefore, the College designs instructional and support services around the complete student experience—a departure from organizing programs around department silos.

Guided Pathways provide comprehensive and strategic approaches to piloting students from connection through completion via a structured approach to academic and career choices. Four pillars serve as the supporting objectives for Guided Pathways: 1) create clear curricular pathways to employment and further education; 2) help students choose and enter their pathway; 3) help students stay on their path; and, 4) ensure that learning is occurring with intentional outcomes.

Compton College has organized instructional units into Guided Pathway Divisions, which represent collections of academic majors with related courses, including:

- Business and Industrial Studies;
- Fine Arts, Communication and Humanities;
- Health and Public Services;
- Science, Technology, Engineering, and Math (STEM); and,
- Social Sciences.

The full and effective implementation of Tartar Completion by Design and Guided Pathway Divisions will necessitate increasing institutional capacity through additional technological infrastructure, staff, and/or professional development in key areas, including, but not limited to:

- enrollment services (e.g., Banner registration and advising modules), financial aid (e.g., automated processing and disbursements through Ellucian Banner Financial Aid module);
- universal design tools and techniques to ensure consistent and equitable access among all course offerings;
- counseling, advising, mentoring, tutoring, student equity, and special programs (e.g., First Year Experience, Promise Program); and
- information technology (e.g., technology to support the student experience and to enhance teaching and learning).

Compton College also is working to put technology in students' hands to improve their experience and success, which is supported by evidence that many students in the service area may have limited access to computers. There are several initiatives to improve student success with technology:

- Through the Oliver W. Conner College Promise Program students will receive a laptop computer if they meet requirements by their third primary term;
- The College has invested in class laptops for English courses to support implementation of Assembly Bill 705, the Seymour-Campbell Student Success Act of 2012;
- Math students now have access to scientific calculators through a library loan program; and,
- The College is currently assessing the current computer labs across campus to refresh the computers and environments (e.g., chairs) for direct student access.

In addition to these efforts to increase student access to computers, Table 2 illustrates how technology implementation will support students as they progress from connection with the College through transition.

**Table 2: Technology Supports for Completion by Design**

<b>SOFTWARE/SYSTEMS CATEGORIZED BY THE COMPLETION BY DESIGN FRAMEWORK</b>				
<b>Connection</b>	<b>Entry</b>	<b>Progress</b>	<b>Completion</b>	<b>Transition</b>
CRM Recruit Identifies and tracks students recruited to attend Compton College				
CCCApply Application to the college				
	Comevo Online orientation			
	NetTutor Online tutoring			
	MyCompton Sharepoint portal for all students and faculty to access account and college information			
	CRM Advise Early alert system for faculty and staff to identify and support students who may struggle. Allows for faculty and staff to communicate with those students and connect them to resources.			
	Canvas Distance education platform			

		<p><b>Degree Works</b> Degree audit program to track progress toward a degree/certificate</p>	
		<p><b>Banner</b> Student Information System and mobile application</p>	
		<p><b>Campus Logic</b> Financial aid eligibility verification system. Generates award letters to students.</p>	
		<p><b>High Tech Center</b> Computer lab for students with referral for prescribed accommodations that includes assistive technology, test accommodations, equipment loan, and alternative media</p>	
		<p><b>Payment Gateway</b> Online payment center for students</p>	
		<p><b>OneCard</b> Generates Student ID cards and can be used to track the student experience (e.g., scanning cards at events, services).</p>	
		<p><b>Maxient</b> Incident reporting (e.g., discipline, grievance, AIMS, Title IX reporting) for students, faculty, and staff.</p>	
		<p><b>Career Cruising/True Colors/Eureka</b> Career assessments and programs to help students choose a career path and program of study</p>	
		<p><b>Cranium Café (offered through Canvas)</b> Online counseling for students</p>	
		<p><b>Credentials</b> System to buy parking permits and order transcripts online</p>	
		<p><b>Compton College Website</b> Key communication tool to new and existing students, staff, and faculty about campus information</p>	
		<p><b>Program Mapper</b> Provides specific information about what courses to take and when to take them by major/ degree. Currently available for Associate Degrees at Compton College. Planned to map to Bachelor Degrees with CSU Dominguez Hills.</p>	
		<p><b>NexGen Web Solutions</b> Scholarship management system</p>	

In addition to these technology platforms and software that directly serve students, Compton College also is launching and supporting software that supports the campus community to be more efficient in their work. Some of these programs include:

- Argos—creates data reports from the Banner SIS;
- Asset Essentials (*School Dude*)—online facilities work order system;
- California Virtual Campus- Online Education Initiative—provides resources for faculty teaching online courses;

- Cornerstone—tracks faculty professional development opportunities and participation (fall 2020);
- Curricunet- system that tracks curriculum offering with the Chancellor’s Office;
- [Distance Education Resources](#)—instructional media, web accessibility, and online communication tools for faculty teaching online courses; professional development and policy information;
- Nuventive—faculty and staff use it to track annual planning documentation and Student Learning Outcome data for the College;
- Office 365—provides a secure file sharing system in the cloud for faculty, staff, and students;
- Police emergent and business communications systems;
- Qualtrics—online survey system for students, faculty, and staff to collect evidence for continuous program improvement;
- SolarWinds—online MIS helpdesk;
- Transfer Evaluation System (*College Source*)—online system for counselors and deans to evaluate and articulate courses across colleges and universities; and,
- WebCRD—online copy center ordering for faculty and staff.

Compton College is continually assessing the functionality of these technology systems. While the systems or the system names may change, the College intends to maintain this type of technological functionality for students, faculty, and staff.

The Community Relations Department also will be redesigning the College website to improve the design, navigation, and responsiveness of the site. An outside vendor will support the redesign and data migration. Until that time, the Office of Community Relations will work with faculty and staff to update the content of the website, with particular focus on the Future Students webpage and the new Guided Pathway Division webpages. Training will be made available in the current content management system (OU Campus) to faculty and staff who maintain webpages for their program or department.

The MIS department in coordination with offices across the campus have been implementing the new Enterprise Resource Planning system, Banner. This system houses the College’s student information and course information. It includes several modules for different users to enter data into the system, as well as use data from the system. This system has been supported by the Recovery Fund that will sunset by 2022. The College is considering how to institutionalize support for this integral system. The College also

is considering how to best house its historical data and may build a Data Warehouse to support research efforts.

DRAFT

## CHAPTER 4: Accrediting Commission for Community and Junior College (ACCJC) Accreditation

### Standard IIIC

The *Compton College 2024 Technology Plan* correlates to the following ACCJC Accreditation Standards:

Standard III: Resources - The institution effectively uses its human, physical, technology, and financial resources to achieve its mission and to improve academic quality and institutional effectiveness.

#### C: Technology Resources

1. Technology services, professional support, facilities, hardware, and software are appropriate and adequate to support the institution's management and operational functions, academic programs, teaching and learning, and support services.
2. The institution continuously plans for, updates and replaces technology to ensure its technological infrastructure, quality and capacity are adequate to support its mission, operations, programs, and services.
3. The institution assures that technology resources at all locations where it offers courses, programs, and services are implemented and maintained to assure reliable access, safety, and security.
4. The institution provides appropriate instruction and support for faculty, staff, students, and administrators, in the effective use of technology and technology systems related to its programs, services, and institutional operations.
5. The institution has policies and procedures that guide the appropriate use of technology in the teaching and learning processes.

This technology plan supports ACCJC Standard IIIC by identifying specific, critical institutional planning needs and establishing measurable goals and objectives for technology services, hardware, software, professional support, and human resources, which ultimately support teaching and learning processes.

**CHAPTER 5: Assessment of Conditions**

**Section 1— External Environmental Conditions**

Examining the technological environment in the local area is critical to developing a relevant, student-centered technology plan that will ensure that Compton College is meeting its mission and fulfilling its strategic initiatives. Thus, it is important to consider local data regarding residents’ access to computers and broadband so that the College crafts goals, objectives, and strategies to service current and future students whose access to information technology may be significantly limited.

First, while a growing number of Americans use smartphones as the primary means of internet access, dependency on smartphones for this purpose is more common among younger adults who are also non-white and lower income.<sup>1</sup> Mobile devices enable students to access College information and services, and communicate with faculty and staff, but smartphones cannot support many learning-related functions (e.g., writing papers) that require using Microsoft Word or other similar software programs. Additionally, not all smart devices have features that allow students to access the instructional features in online courses. Moreover, as noted in a recent Georgia Tech study, while students with disabilities (who are also more likely to be low-income) have access to smart devices that offer many assistive technologies that meet their needs, limitations persist.<sup>2</sup> As this study notes, “[O]n average, only half, or in some cases less than half, of the accessibility features that are important for people with dexterity/mobility, hearing, vision, and cognitive disabilities were found when the data were parsed by accessibility features based on disability type.”<sup>3</sup> Thus, to ensure equity and achievement for all students, Compton College must address, in its technology planning, students’ access to computing technologies.

In addition to considering students’ access to computing technologies, the College must consider the internet access needs of current and future students, which is also critical to their successful completion of courses and programs. Accordingly, it is important to reflect on the percentage of households in local cities with computers and broadband, which is presented in Table 3.

**Table 3: Residents’ Access to Computers and Broadband Subscription in Local Cities (2013-2017)**

CITIES	% COMPUTER	% BROADBAND
Lakewood	92.4	87.6
Carson	90.1	82.5

<b>Long Beach</b>	89.7	79.9
<b>Downey</b>	90.1	79.2
<b>Bellflower</b>	86.3	75.9
<b>Gardena</b>	85.0	75.0
<b>Norwalk</b>	88.1	73.9
<b>Artesia</b>	85.7	73.6
<b>Paramount</b>	85.2	72.6
<b>Lynwood</b>	85.3	69.7
<b>Compton</b>	83.9	67.8
<b>Bell</b>	80.6	67.3
<b>Bell Gardens</b>	80.7	64.5

Source: U.S. Census Bureau Quick Facts

As the data in Table 3 indicates, most students coming to Compton College from local area cities do have household access to computers or broadband. Specifically, on average, approximately 86% of area residents have computer broadband in their homes and 75% have broadband. However, access in certain neighborhoods is still limited. For example, in Bell Gardens, about one out of five people do not have a computer in their home and two out of five do not have access to the internet. Thus, students coming from households without computers and broadband will likely rely on College technology (e.g., computer labs, campus Wi-Fi) to complete assignments and access course information.

Furthermore, as the Public Policy Institute of California (PPIC) has noted, a “digital divide persists,” particularly for “low-income, less educated, rural, African American, and Latino households.”<sup>4</sup>

Additionally, while state and federal support for digital infrastructure and technology has helped roughly 90% of California schools to meet Federal Communication Commission minimum standards for digital learning, gaps continue to persist in the home. The PPIC notes, “22% of low-income households with school-aged children did not have any internet connection at home, and 48% reported no broadband subscription at home. Nearly half (44%) of these households said cost was the main barrier.”<sup>5</sup> Thus, students from low-income households are disproportionately impacted by the lack of technological resources at home, which ultimately will impact both their access to and completion of college-level

courses and programs once they arrive at Compton College. Therefore, considering local data concerning household access to information technology, which echoes that for California as whole, the College must develop plans to meet the technology needs of current and future students.

**Section 2 – Internal Conditions and the Status of 2017 Technology Master Plan Objectives**

In its *2017 Technology Master Plan*, Compton College established objectives to maintain a 21st century campus, develop technological enhancements in all classrooms, and optimize administrative technologies to improve the accessibility of institutional systems. An assessment of the status of these objectives provides important context for the development of updated goals and objectives, which align to the College’s strategic initiatives. Table 4 provides a summary assessment of the current status of the 2017 objectives as completed, in progress, or pending.

**Table 4: Assessment of 2017 Technology Master Plan Objectives**

OBJECTIVE	STATUS	COMMENTS
<b>Objective 1: Improve systems management by implementing Microsoft System Center (a modular technology).</b>	a) Completed: Microsoft System Center Configuration Manager (SCCM).	a) This system deploys computer images, install software and Microsoft updates, maintain asset inventory, and monitor anti-virus status of all workstations.
	b) In progress: Microsoft System Center Data Protection Manager.	b) This system backs up data and virtual machines.
	c) In progress: Microsoft System Center Operations Manager (SCOM).	c) This system monitors the performance of all servers and network devices, network traffic, and status of applications.
<b>Objective 2: Implement business continuity and disaster recovery with cloud backup.</b>	In progress	Compton College will utilize Data Protection Manager to back up data and then send backup data to the Azure cloud.
<b>Objective 3: Create a responsive website and student portal aligning to mobile devices popularity trend.</b>	Website: In progress	The Director of Community Relations oversees updates to the College website.
	Portal: Completed	MyCompton SharePoint portal, a mobile-friendly platform, stores all student, staff, and faculty applications and other internal resources.

<b>Objective 4: Implement a single sign-on, identity management services system.</b>	Completed	The Azure Active Directory Single Sign-On platform authenticates all users.
<b>Objective 5: Campus-wide assistive technology to ensure technology accessibility with Americans with Disabilities Act (ADA) and 508 compliance standards.</b>	In progress	Compton College is working with an IEPI team about Distance Education, and the faculty coordinator is coordinating faculty training. MIS staffing will be needed to complete this goal.
<b>Objective 6: Continue enriching classrooms with interactive audio-visual systems.</b>	Completed	College is completing the audio-visual upgrades of the last eleven classrooms on campus, which will be completed by August 2019.
<b>Objective 7: Secure student and employees' confidential information with best methods in the industry.</b>	In progress	The College has planned enhancements to existing security when additional staff are on board.
<b>Objective 8: Optimize contract management and procurement processes.</b>	Pending	The estimated start date for this objective will be mid-fall 2019.
<b>Objective 9: Implement document management system.</b>	In progress	Entering the final phase of the Banner Document Management system. Remaining tasks are configuring user security and scanner deployment.
<b>Objective 10: Migrate all users to Office 365.</b>	Completed	Office 365 provides cloud-based Microsoft tools for users.
<b>Objective 11: Develop equipment life cycle program.</b>	Pending	ITS is currently conducting an inventory of equipment and will identify a life cycle and replacement policy in 2019-2020.

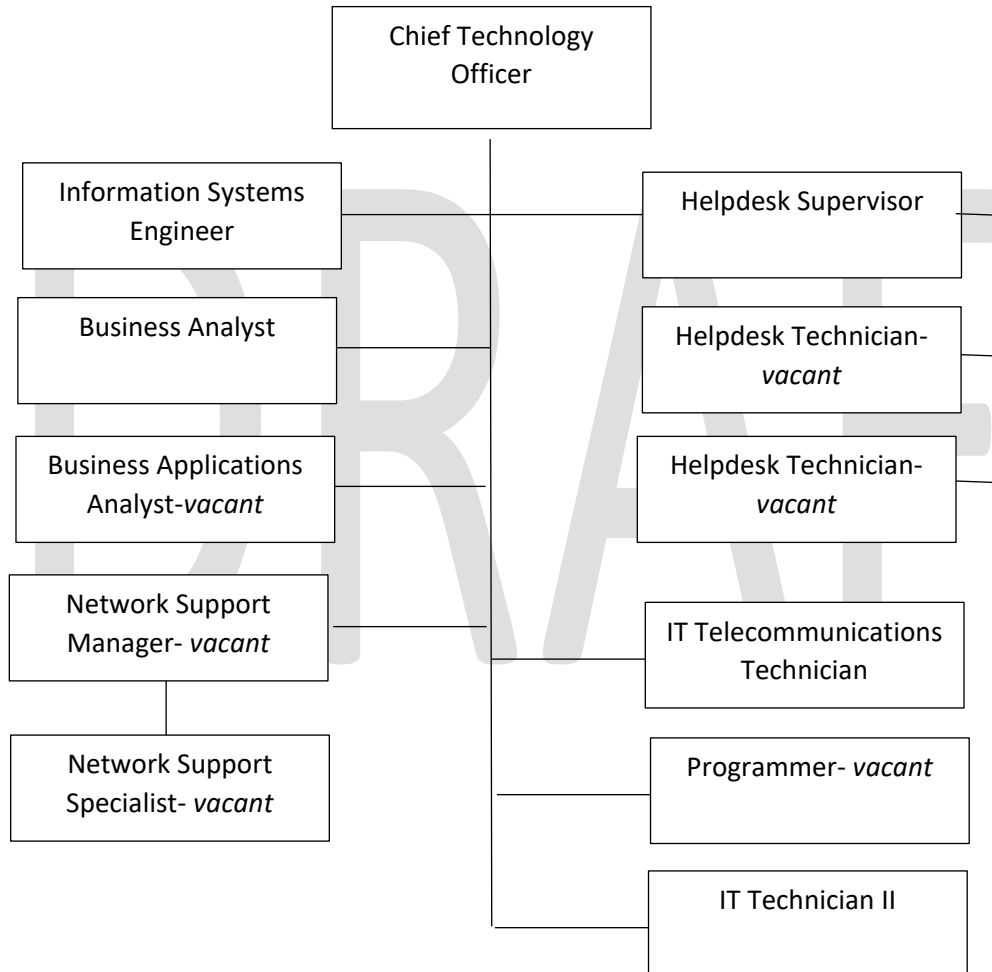

### Section 3 — Current Staffing that Supports Technology at Compton College

Human capital is the most important resource for any organization, which is why Compton College strives to recruit, hire, retain, and develop the talents of highly qualified professionals who are passionate about student success and dedicated to Compton College's mission and vision. Providing the information technology and support services, which are essential to successful implementation of the College's strategic initiatives will require additional human resources. Given that information technology skills are in extremely high demand and garner salaries in the private sector that far exceed salary ranges in the public sector, Compton College will need to consult salary studies and review educational requirements for new positions to be competitive in this complex, fast-growing informational age.

Furthermore, the College must also develop innovative approaches to attract and retain qualified technology personnel.

As the MIS organizational chart in Figure 1 illustrates, the College has filled some of the MIS department vacancies proposed in 2017 (i.e., Help Desk Supervisor and Business Analyst); however, several other specialized positions (e.g., database administrator, business applications support) remain unfilled.

**Figure 1: Management Information Systems (MIS) Department Organizational Chart**

While the College has filled key vacancies in the MIS department, other important positions will need to be addressed in the future (e.g., web developer, network support specialist, business applications support specialist). Persistent vacancies have impacted the College’s ability to fully implement high-priority ITS projects, including limiting the scope of the new implementation of essential services (e.g., implementation of the new Banner system and the MyCompton portal). Furthermore, the College needs to identify permanent on-going funding for MIS positions, as several of them have been funded

using Recovery Fund dollars that will sunset in 2022. Permanent funding is critical to maintain a robust MIS department that serves the college in 2022-23 and beyond.

As Compton College has transitioned to an independent institution, the MIS team has prioritized critical services while placing less critical priorities (e.g., creating College policies, implementing a computer replacement process) in an implementation pipeline as the College builds its ITS team. To fill gaps in service until a local team can be established, the ITS department has also considered consultant contract services when necessary; however, implementing technology plan goals and objectives will require the College to invest in permanent employees who are fully engaged members of the campus community.

In addition to the ITS staffing, the Community Relations department manages website updates and development with contract support and Academic Affairs includes staff who support Distance Education (e.g., Instruction Specialist, Learning Management System Specialist, Faculty Coordinator).

#### **Section 4 – Technology Governance**

Compton College has two Collaborative Governance Committees that inform and support technology use: the Technology Committee and the Distance Education Advisory Committee (DEAC). The Technology Committee is a standing institutional committee of the College charged with addressing priorities and changes in technology strategies. As the advisory group for technology-related planning, the Technology Committee’s scope of responsibility includes:

- recommending new technology (equipment or systems) and potential purchases;
- reviewing on an annual basis technology needs, policies, and procedures; and,
- determining the best allocation of donated or granted technology equipment.

The Technology Committee volunteers meet monthly to evaluate and set technology practices and strategic priorities as part of the annual plan updates, and provides a report to the Planning and Budgeting Committee each spring semester.

The DEAC is a sub-committee to Compton College’s Academic Senate. This committee coordinates distance learning and related instructional technology activities for faculty and students. DEAC meets monthly and provides reports and recommendations regularly to the Academic Senate. More information about DEAC and Distance Education at Compton College is described in the next Chapter.

## **Chapter 6 — Distance Education**

Compton College is investing in and developing its Distance Education offerings for students. The College identified Distance Education in its November 2017 [Quality Focus Essay Special Report](#) that was submitted to the Accrediting Commission for Community and Junior Colleges (ACCJC) with three main goals: 1) create an organizational management structure for distance education, 2) implement best practices to increase student success , and 3) promoting student awareness and investing in success tools. To support the College’s efforts to meet these goals, the College started participating in an Institutional Effectiveness Partnership Initiative (IEPI) in spring 2019 with support from the California Community College Chancellor’s Office and joined the California Virtual Campus – Online Education Initiative (CVC-OEI) Consortium. This section provides a description of the progress that the College has made toward the Quality Focus Essay goals for Distance Education and plans for distance education through 2024.

### **Section 1- Organizational Management Structure for Distance Education**

Compton College has developed its own support and management structure for Distance Education with its independence from El Camino College. The College established a Distance Education Faculty Coordinator who facilitates the College’s faculty training and certification processes and leads DEAC. The College also hired a Learning Management System Specialist who will help manage the Canvas system, support faculty using Canvas, and operate the Distance Education Technological Learning Center. Furthermore, the College has an Instructional Coordinator who supports distance education at Compton College. These three positions are housed in Academic Affairs. The Learning Management System Specialist is funded through the 2020-21 year with money that will expire, and the district needs to consider a permanent funding source for this position.

In addition to the human resources deployed to support Distance Education, the College also has established DEAC in spring 2017. In support of the institution’s Mission, Vision, Quality Focused Essay (QFE) and Compton College 2024 master plan, DEAC works with the Deans, the Distance Education Faculty Coordinator, Curriculum Committee, Academic Senate as instructional program leaders to facilitate and improve online teaching, learning, and technology.

With the understanding that faculty should have the primary responsibility for developing policies and promoting Distance Education practices, DEAC will support a learner-centered program designed to

further student success by making recommendations to Curriculum and reporting to Academic Senate. Each DEAC member will represent his/her division/department and act as a resource to all faculty and staff members within their division regarding exploration, development and implementation of robust pedagogical online strategies in the Distance Education environment. Also, departments such as the library and student services etc. will collaborate with DEAC to strategize ways to enhance the online experience for our students.

## **Section 2- Implement Best Practices to Increase Student Success**

The Distance Education Faculty Coordinator and DEAC have developed a [Distance Education Handbook](#) for Compton College that outlines best practices and guidelines for Compton College faculty. In addition, Compton College has joined the CVC-OEI in spring 2019 to support the College as it builds its capacity to create strong Distance Education course offerings.

Working with the CVC-OEI, Compton College has established a Faculty Course Review Committee (FCRC) which is responsible for determining the College's Peer Online Course Review (POCR) training process. This will ensure that all faculty who teach online have a standard level of expertise in distance education teaching practices. In addition to the POCR process, Compton College also will host professional development workshops and a Digital Summit about distance education in the coming year.

## **Section 2—Promote Student Awareness and Develop Tools for Student Success**

Compton College is investing in providing faculty with ongoing technological professional development as well as resources to support our online student experience. These support services are provided through the partnership with the CVC-OEI as an online ecosystem of support including online counseling, online tutoring, equitable name pronunciation software, online readiness assessment, and online proctoring of exams. Compton College plans to equitably expand the use of this platform to all students and student services areas.

## **CHAPTER 6: Compton College 2024 Technology Plan Goals and Objectives**

The *Compton College 2024 Technology Plan* goals and objectives detailed in this chapter build upon those established in the *2017 Technology Master Plan*, which align with and support the College’s strategic initiatives, Tartar Completion by Design, and Guided Pathway Divisions. To implement these goals and objectives, the College will develop key action steps and regularly monitor and report progress toward goal completion.

### **Goal 1: Provide cutting-edge instructional and institutional technologies, which support student success and facilitate program completion and transfer.**

- Objective 1: Fill critical technology staff vacancies and work with Human Resources to develop innovative and strategic approaches to successfully recruit and retain highly qualified candidates.
- Objective 2: Conduct a full assessment of the existing campus ITS environment to identify ongoing hardware, software, applications, systems, support, training, and policy needs.
- Objective 3: Capture records of student usage of support services (e.g., use of student ID card linked to Banner record) to inform and guide student support planning.
- Objective 4: Implement technology solutions to support the student experience (e.g., Ellucian Banner modules that enhance enrollment services and financial aid processing, software programs that provide online student orientations, and Early Alert).

### **Goal 2: Provide technological tools, which allow for the effective monitoring of degree and career pathways.**

- Objective 1: Implement degree audit and Program Mapper modules.
- Objective 2: Implement program maps of all Compton College degrees and certificates, and link to CSU Dominguez Hills Bachelor degrees.

### **Goal 3: Provide students and employers with digital resources which connect students with opportunities and information related to students’ academic and career pathways.**

- Objective 1: Implement web applications to allow exploration of career pathways, which integrate with Guided Pathway Divisions.

**Goal 4: Provide technologies that create and maintain equitable, learning-ready experiences, which support the physical, cultural, and cognitive needs of all students.**

- Objective 1: Implement campus-wide technology to ensure an improved student experience through Tartar Completion by Design.
- Objective 1: Implement campus-wide assistive technology to ensure technology accessibility with Americans with Disabilities Act (ADA) and 508 compliance standards.
- Objective 2: Assess students' access to personal computer technology and internet, and implement strategies to increase student access to computers and the internet.
- Objective 3: Survey faculty regarding classroom technologies and update plan goals and objectives to address identified needs.
- Objective 4: Incorporate smart classroom technology into any new classrooms or presentation spaces and upgrade smart classrooms to keep current with changing technologies.
- Objective 5: Through participation in the California Virtual Campus – Online Education Initiative (CVC-OEI), implement Distance Education professional development and student supports, including online tutoring and counseling for all Compton College students.
- Objective 6: Ensure the implementation of regular technological trainings related to student education planning software (e.g., degree audit, career pathways web applications) in coordination with the Professional Development Manager.
- Objective 7: Implement professional development among all Compton College staff and faculty to ensure efficiency with technology.

## **CHAPTER 7: Implementation and Assessment of the Compton College 2024 Technology Plan**

To implement and assess the *Compton College 2024 Technology Plan*, College leadership and the Technology Committee will engage in annual technology planning and evaluation using established planning protocols: annual planning and program review.

The annual planning process, which includes:

- defining annual goals for the ITS department, Distance Education, and Community Relations based upon *Compton College 2024 Technology Plan* goals and objectives;
- defining recommendation(s) to meet each goal;
- defining which Completion by Design area(s) each goal and recommendation will impact (e.g., Connection, Entry, Progress, Completion, Transition);
- defining a measurable outcome for each goal;
- defining responsibilities for the recommendation, implementation and assessment; and,
- archiving the elements of the annual program planning document depository.

In addition to annual program planning, the ITS department is scheduled to complete program review in spring 2020, which will provide an opportunity to assess the outcomes of the *Compton College 2024 Technology Plan* and the ITS program via:

- surveys and other quantifiable data concerning student/client outcomes;
- assessment of the collaborative efforts with the campus and external community;
- appraisal of the current state of the ITS program's facilities and equipment;
- evaluation of the adequacy/inadequacy of the program's current staffing level and training needs; and,
- recommendations appropriate to the current and future resources needed to fulfill the ITS program's goals and objectives.

## CHAPTER 8: Conclusions

- The *2017 Technology Master Plan* established objectives to maintain a 21st century campus, develop technological enhancements in all classrooms, and optimize administrative technologies to improve the accessibility of institutional systems. These objectives have been completed or were in progress by 2019.
- The goals and objectives established in the *Compton College 2024 Technology Plan* will allow the College to operationalize its strategic initiatives and implement Tartar Completion by Design and Guided Pathway Divisions. However, the full implementation of Tartar Completion by Design will necessitate increasing institutional capacity through additional technological infrastructure, staff, and/or professional development in key areas (e.g., enrollment services, universal design tools, counseling, online tutoring).
- Compton College continues to improve students' experiences in distance education by establishing the Distance Education Advisory Committee, a Distance Education faculty coordinator to facilitate the College's faculty training and certification processes and lead DEAC, and a Learning Management System Specialist to help manage the Canvas system and support faculty access and use. Notably, the College is also participating in the California Virtual Campus – Online Education Initiative (CVC-OEI) partnership, which will help support effective practices and technology and improve students' access to and completion of online courses and programs. However, to provide all Compton College students with access to programs and the support needed to complete them the College must develop and implement plans to address students' access to critical computing technologies.
- This technology plan supports ACCJC Standard IIIC by identifying specific, critical institutional planning needs and establishing measurable goals and objectives for technology services, hardware, software, professional support, and human resources, which ultimately support teaching and learning processes. Furthermore, the *Compton College 2024 Technology Plan* furthers the College's commitment to continuous quality improvement by incorporating the means to implement and regularly assess its progress toward meeting the established goals and objectives.
- Future funding for foundational MIS and technology platforms that are supported by Recovery fund or grant dollars must be considered in budget planning in the coming years. Of importance, the Recovery Fund will be exhausted by June 2022, which supports the Banner ERP system

implementation. The district anticipates future costs over \$5 million through 2027-28 for Banner. Currently, the district has set aside \$2.5 million in the final 2019-2020 district end balance to support this need. Several positions across the campus (e.g., MIS staffing and the LMS specialist) are supported by the Recovery fund or grant dollars that will end, and the College should consider permanent funding sources for these positions.

DRAFT

September 16, 2019

Dr. Stephanie Atkinson-Alston  
Vice President, Academic Affairs  
Compton College  
1111 East Artesia Blvd.  
Compton, CA 90221

Dear Dr. Atkinson-Alston:

This letter is to notify you that the Compton College Academic Senate has appointed Sean Moore as the Curriculum Chair, effective immediately. His term will continue through June 30, 2020, and the Senate has allotted 30% release time for his service to the College.

Sean Moore has been part of Academic Senate's Curriculum Committee for over a year, and he is dedicated to ensuring that all curriculum matters continue to be handled with professionalism and accuracy on behalf of the Academic Senate.

Warm regards,

Amber Gillis  
Assistant Professor of English and Humanities  
Academic Senate President  
Accreditation Faculty Chair  
Compton College

PROFESSOR • PHILOSOPHER • AUTHOR • A  
**DR. CORNEL WEST**

Cornel West is a prominent and provocative democratic intellectual. He is Professor of the Practice of Public Philosophy at Harvard University and holds the title of Professor Emeritus at Princeton University. He has also taught at Union Theological Seminary, Yale, Harvard, and the University of Paris.

Author of 20 books, spoken word, numerous film and television appearances, he is best known for his classics, *Race Matters* and *Democracy Matters*, and for his memoir, *Brother West: Living and Loving Out Loud*. His most recent book, *Black Prophetic Fire*, offers an unflinching look at nineteenth and twentieth-century African American leaders and their visionary legacies.

In short, Cornel West has a passion to communicate to a vast variety of publics in order to keep alive the legacy of Martin Luther King, Jr. – a legacy of telling the truth and bearing witness to love and justice.

## Fall 2019

***TEACHIN' IT! Breakout Moves that Break Down Barriers for Community College Students***  
by Felicia Darling

**Flex Credit Opportunity-FACULTY, Bring your lunch and join us for the conversation.**

*Teachin' It!* is a hands-on guide to cutting-edge research and classroom strategies that redress the graduation gap in community and open-access colleges. Readers will discover new strategies to create equitable, engaging, interactive classroom environments where students from all backgrounds are motivated to take risks, make mistakes, share their unique approaches and perspectives, and develop their own identities as powerful life-long learners.
